## はじめに

辻中 豊

私たちは、1997年に日本における「団体の基礎構造に関する調査」を実施した。この調査は *Japan Interest Group Survey* という当初用いられた英文での名称から *JIGS* と略記することとし、各国の調査は、その前に各国の頭文字をつけて（日本なら J-JIGS というように）区別することとした。1997年後半には、韓国 (K-JIGS)、そして98年から準備された米国調査 (US-JIGS) は99年に遂行された。本コードブックは *US-JIGS* の最初の研究報告書であり、成果である。

アメリカ調査は、辻中豊を代表とする団体基礎構造研究会が企画設計し、メリーランド大学社会調査研究所 (Survey Research Center of University of Maryland) が1999年7月から11月に実施した。調査の対象地域は、他の JIGS 調査と同様、首都であるワシントン D.C. とノースカロライナ州である。他の調査との違いの一つは、この両地域でほぼ同数 (約750) の回答数を得るように設計したことである。調査方法の詳細については、同研究所作成の Outline of Data (後掲) を参照していただきたい。その他、日本調査との異同関係についても、後掲の対象表を参照してほしい。

この調査は、米国を対象地域とするので、当然であるが英語の質問票を用いて、政府調査などに実績の有る上記調査機関によって遂行された。同研究所では、これまでの社会調査の蓄積も大きいことから、米国での実情に沿う形で、調査表や方法が改良された。調査に際して、Survey of Associations, Clubs, and Organizations という名称が用いられた。ただ、本書の表題は、他の各国調査と共通した英文タイトルをつけて表示することとした。

ここで各国調査共通の英文表題について触れておきたい。というのは、実際に日本から、韓国、アメリカ、さらにドイツ、(中国) へと本調査が展開するにつれて、上記に記した英文表記 Japan Interest Group Survey では、日本語での表記 (団体の基礎構造) との微妙な相違も含め、この比較調査のねらいを言い尽くせてないのではないかという問題が生じた。つまり、Interest Group という用語は、団体や組合一般というより日常的には特有のやや限定された政治的な意味を伴っている。ところが、本調査は、各国で電話帳 (ないしそれに準ずるもの) をデータベースに「団体、組合」と呼ばれているものを包括的に対象とし、無作為抽出法を用いており、この包括性からすればやや狭すぎるのではないか、という問題である。無論、政治分析上の用語としてはこれで問題はないということもできるが、米国調査では、調査機関の意見を入れ上記名称が用いられた。

こうした点を踏まえ、再度、英文での表記について検討した結果、最終的に、日本、韓国、米国、そしてドイツ調査まで含めて、本 JIGS 調査の英文表記は、

*Cross-national Survey on Civil Society Organizations and Interest Groups ( )*

( ) 内に Japan など各国名を付記

と表記することとした。ただし、JIGS と明示したこれまでの公刊研究もあることから、日本語

や英語での略表記はこれまで同様、JIGSとし、各国の調査はそこに各国頭文字をつけるというこれまでの方法を踏襲したい。

米国調査から派生した英文表記の問題について記すことになったが、こうした概念の問題、方法の問題は、比較調査、比較分析に特有の問題であり、それ自体が興味深い知的な問題を提示している。

すでに触れたように、この比較調査は、2000年にはドイツ調査の実施へ、さらに2001年には中国調査企画へと展開している。今後もこうした研究上の問題が提起されることが予想される。それ自体は決して比較調査の不可能性を示すものでなく、逆にその可能性を、つまり創造的であり、問題提起的であり、そして有意味であることを示すものと筆者は考えている。この調査は、国家と市民社会に関係するほぼすべての団体を、数カ国にわたり対象とする、政治社会体制論を視野に入れた「野心的」な調査である。その野心性ゆえに、さまざまな問題が生じるが、それを透明化させ提示することこそが学問としての比較政治学の発展を導くものと信じている。

なお本調査と並行して、同じく日韓米独を対象とする地球環境政策ネットワーク調査もほぼ同時期に行われた。それらを含め、関連するデータのコードブックは以下のとおりである。また、こうした調査を支えて頂いた研究助成も併せて表記する。記して感謝する次第である。

最後に、本調査は他の調査同様、多くの研究協力者の助力なしには完成しなかった。調査参加者である団体基礎構造調査研究会のメンバー、特に石生義人(現在、国際基督教大学助教授)、森裕城(現在、京都女子大学講師)、崔宰榮(筑波大学助手)の各氏に感謝したい。メリーランド社会調査研究所が作成したデータをもとにした本コードブックの最終的な調整は、崔宰榮氏によってなされた。その弛まぬ努力にも感謝したい。さらにこの間、研究室の助手として手伝ってくれた仙保隆行さん、吉田里江さん、中里しのぶさんにもこの機会に感謝の意を表明したい。

◆ *Outline of Data*

## ***Outline of Data***

- Prepared by Survey Research Center of University of Maryland, December 1999.
- Survey Title : Survey of Associations, Clubs, and Organizations

## ***Target Population/ Sample***

The population for this study were directors (or their designates) of interest groups, including both profit and non-profit organizations, in Washington, D.C. and North Carolina. The sample was provided by the Survey Research Center, however the client suggested the categories of target organizations. SRC obtained the sample list from Washington, D.C. and North Carolina telephone directories. Sample from the telephone directories incorporated the following categories of Associations/Groups: Academic or Cultural, Fishing Cooperative, Economic, Social Welfare, Religious, Political, Agricultural Cooperative, Agricultural Forestry and Fisheries, and Labor.

## ***Questionnaire Development/Data Collection***

SRC conducted a mail survey from which information was collected from U.S. interest groups. This study was part of a comparative study of interest groups in Japan, Korea, and the United States.

The purpose of the survey was to gain insight into associations', clubs', and organizations' characteristics and lobbying activities. Respondents were asked to provide demographic information as well as information regarding their activities and political positions and involvement.

The questionnaire underwent revision by SRC staff and was finalized after review by the client. One pretest of 100 questionnaires was mailed.. Of the 100 questionnaires sent, 32 completed surveys were returned and one survey was returned as a refusal (indicating that the survey did not apply). The pretest response rate was 32% (32/99).

The first set of questionnaires (total=3,109) were mailed on July 14<sup>th</sup> and 15<sup>th</sup>, upon finalization of the questionnaire. 1,110 of these surveys were sent to North Carolina interest groups and 1,999 were sent to D.C. interest groups. Additional sample was drawn from the same telephone directory method in order to send a second mailing. The second mailing, sent on August 10<sup>th</sup> and 11<sup>th</sup>, consisted of 1,515 surveys to N.C. interest groups and 465 surveys to D.C. interest groups (total=1,980). A week proceeding both mailings, the standard follow-up postcard was sent, reminding anyone who had not sent back their survey to do so. After sufficient time was allotted for return of the surveys, additional mailings of the survey for samples for both samples, excluding completed surveys and incorrect addresses, were sent (combined total=3,529).

Main data collection ended November 12<sup>th</sup>. A total of 1,492 surveys were completed and returned. Given the goal to obtain 1500 surveys, eight additional surveys were pulled from the pre-test group.

### **Survey Rates**

The total sample size for the Interest Group Survey was 5,089. There were 751 (15%) bad addresses. The eligible sample was 4,338 (5,089-751). There were 1,492 surveys completed and returned from the eligible sample. The overall response rate is 34.4%. Eight additional surveys were pulled from the pretest group, all of which were from D.C. The following table shows the status of the sample by state, excluding the pretests. The response rate from the N.C. sample was slightly higher than the D.C. sample.
